A Complete Heart Care Centre Under One Roof

Lakshmi Narayan Hospital offers **comprehensive cardiac solutions**, equipped with modern technology, experienced doctors, and emergency services, ensuring patients get timely, accurate, and life-saving treatment. Here's how:

1. State-of-the-Art Cardiac Cath Lab (पूर्णतः कार्यरत)

A **Cardiac Catheterization Lab (Cath Lab)** is a specialized facility where diagnostic and interventional heart procedures are performed. At Lakshmi Narayan Hospital, the Cath Lab includes:

- **Advanced Angiography & Angioplasty facilities**
- High-end equipment for **minimally invasive cardiac interventions**
- Handled by an **experienced team of interventional cardiologists**
- Quicker procedures with shorter recovery time

This setup helps detect blocked arteries and perform stent placement or balloon angioplasty—all within minutes of the patient's arrival.

2. Best-in-Class Critical Cardiac ICU

For patients with severe cardiac conditions, post-heart attack care is crucial. The hospital features a specialized **Cardiac Intensive Care Unit (ICU)** that includes:

- World-class ICU support for **critical heart patients**
- 24x7 monitoring with **advanced cardiac equipment**
- **Skilled cardiac nurses and critical care doctors** on constant standby
- Immediate support for emergencies like cardiac arrest, heart failure, and arrhythmia

This ICU ensures **continuous heart monitoring and timely intervention**, improving survival chances drastically.

3. 24x7 Emergency Heart Care – No Delay in Saving Lives

Heart attacks can happen anytime—day or night. That's why Lakshmi Narayan Hospital has set up a **round-the-clock emergency care system**, which offers:

- **Instant ECG and diagnostic tests** at arrival
- Trained emergency doctors and technicians on duty 24/7
- Rapid response team for **golden hour treatment**
- Seamless coordination between ER, Cath Lab, and ICU

When every second is vital, this 24x7 emergency system ensures that **no time is wasted**.

4. No Need to Travel to Bigger Cities

In critical cardiac conditions, **traveling long distances to Raipur, Bilaspur, or other metro cities increases risk**. Now, Ambikapur residents have access to:

- **Expert cardiac consultation and procedures** locally
- Reduced physical and emotional stress for patients and families
- **Cost-effective treatment** compared to metro hospitals
- **Better outcomes** with quicker, localized treatment

♥ Why Choose Lakshmi Narayan Hospital & Heart Centre?

Lakshmi Narayan Hospital has built a reputation for **excellence in patient care** and **successful cardiac outcomes**. Here's what sets it apart:

- **Proven track record** in saving lives
- Experienced cardiologists, surgeons, and critical care experts
- Compassionate, professional nursing staff
- Focus on **patient education, aftercare, and long-term heart health**
- **Affordable care with no compromise on quality**

□ Did You Know?

- A delay of just **10 minutes** during a heart attack can increase heart muscle damage.
- Most patients in small cities are forced to travel to bigger cities, losing precious time.
- Lakshmi Narayan Hospital is designed to **bridge this life-threatening gap**.
